2019 – 2021

OUR VISION

To support our Trust in being a first class provider of healthcare by delivering a first class library and knowledge service encompassing on our Trust values.

Our Proud to Care Values

Compassion

Achievement

Relationships

Environment

Our Mission

To build relationships with our staff and students to enable them to proactively access the right knowledge and evidence to deliver excellent patient care and to enable high-quality decision making. To support staff and students in their lifelong learning in an environment which will empower them and foster innovation and intellectual growth.

Our Objectives

1. To improve and modernise our physical library spaces ensuring they are fit for purpose and conducive to learning.

2. To work collaboratively with our partners in Derbyshire to expand and improve services making savings where possible by sharing

3. To support all our staff and students with their lifelong learning, development and academic goals ensuring our resources are relevant to their needs.

4. To enable good practice throughout the Trust by promoting the use of evidence and knowledge to improve patient outcomes.

5. To support our patients and their families and carers whilst they visit our hospital by providing patient information resources.

6. To ensure the services we provide are in line with the HEE Quality and Improvement Outcomes Framework.

2019 – 2021

How we will achieve our objectives

1.  Hold engagement sessions with our staff and students on what the future library space will look like.

Plan improvements around this feedback and explore different options for funding.

Expand our space by creating an outdoor study space and garden.

2.  Continue and expand our joint Derbyshire NHS Library and Knowledge Service provision to DCHS staff.

Look for further opportunities to share and enter collaborations for resources.

Attend regional networking events to share good practice and learning.

3.  Provide a modern, fit for purpose environment that is conducive to learning.

Assist staff with accessing knowledge and information that they need to continue their professional development.

Facilitate elearning so staff and students are compliant in their mandatory training.

4.  To provide the latest research to enable staff to apply the evidence to their decision making.

To promote the use of evidence and research in patient care.

To empower staff to proactively access resources to improve their practice.

5.  To continue and expand our collection of patient information and resources.

To look for new opportunities to help support patient to make their hospital stay more comfortable.

To support the Trust in gaining Autism Accreditation from the National Autistic Society.

6.  To expand the provision of patient and public information.

To nurture and enhance the skills of library and knowledge staff enabling us to deliver an excellent service.

To monitor the impact of the library and knowledge service on patient care.
